Chengannur,Kerala

Higher Secondary,CBSE, Mar Ivanios Bethany Senior Secondary School, Kalayapuram, Kottarakara, Kollam

2016 – 2018
Kottarakara,Kerala

Secondary, CBSE, Mar Ivanios Bethany Senior Secondary School, Kalayapuram, Kottarakara, Kollam

2015 – 2016

Professional Experience

Backend Developer Intern, Visanka Technologies Private Limited 🔗

09.2023 – present
Chennai, India

- Crafting seamless APIs for Visanka Technologies, I collaborate with the development team to design, develop, and test innovative software solutions.
- Engaging in constructive code reviews, I provide valuable feedback and troubleshoot issues, ensuring the delivery of projects aligns with our meticulous project planning.

Freelance Web Developer

present

- Designed and developed responsive websites for clients across various industries.
- Collaborated with clients to understand their needs and delivered high-quality solutions within specified timelines.

Projects

Rainfall prediction using machine learning, Academic project 🔗

- Implemented multiple linear regression in machine learning to create a predictive model for rainfall. Utilized historical data and relevant variables to accurately forecast future rainfall patterns.

Facebook Template-Clone, Personal Project 🔗

- Developed a Facebook clone featuring a signup page using HTML and CSS, showcasing proficiency in front-end development.

Web Solutions Company Website, Personal Project 🔗

- Created a concise website for a web solutions company, providing comprehensive information about their services.

Entrance Exam Preparation website 🔗

- Designed a responsive and user-friendly online platform offering courses, live classes, tests, doubt clearing, and more to aid students in preparing for various science entrance exams in India.

Netflix-Clone, Personal Project 🔗

- Built a Netflix clone using ReactJS that categorically displays movies and TV shows, integrating data from The Movie Database API.

Personal website, Presonal Project 🔗

- Crafted a sample personal portfolio website showcasing skills, projects, and contact information, demonstrating a strong web presence.

Jupiter Travels, Client Project 🔗

- Crafted a user-friendly travel agency website on WordPress, providing comprehensive information and services for travel and tourism.

Job Application

- Constructed a robust API system using Node.js, Express, and MySQL for a job application platform. This system manages job postings, user profiles, and related data, enhancing the efficiency of the job application process.

Dream Dwell, Client Project 🔗

- Created and hosted a responsive website for property management in Canada, featuring multiple pages with detailed property information and booking capabilities for a user-friendly experience.

Skills

Technical Skills, Python, C, C++, HTML, CSS, Bootstrap, JavaScript, ReactJs, NodeJs, ExpressJs, MySQL, API, Wordpress.

Personal Skills, Dedicated, Hard-working, Adaptability, Time management, Accountable, Problem solver.

Courses

IBM Full Stack Software Developer Professional Certificate, IBM

07.2023 – present
